

MD ALAMIN AHMED

MERN-Stack Developer

+880 1401768261 | alaminahmed.dev@gmail.com | Dhaka, Bangladesh

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Career Objective

Passionate MERN-Stack developer with nearly 2 years of hands-on experience in learning and building web application. Skilled in building clean, responsive, and user-friendly websites. Focused on creating fast and easy-to-use applications. Eager to learn new technologies and now exploring back-end development to grow into a full-stack developer.

Skills

Front-End: HTML | CSS | Tailwind CSS | JavaScript | React.js | Next.js | Typescript | Context API | Chart.js | Redux

Back-End & Database: Node.js | Express.js | MongoDB | PostgreSQL | REST APIs | CORS | JWT

Tools & Technologies: Git | GitHub | VS Code | Vercel | Netlify | Figma | Clerk | Firebase | Prisma | Postman

Soft Skills: Effective Communication | Time Management | Team Work | Responsibility

Projects

1. Delish - Food Delivery App

[Live Link](#) | [Client Code](#) | [Server Code](#)

Features:

- This feature recommends all available menu items based on user's current weather.
- Secure and easy payment processing for food orders via stripe.
- Easily find all available restaurants using voice search.

Technologies used: React.js, Tailwind CSS, Chart.js, Firebase, Context API, Node.js, Express.js, MongoDB, CORS, JWT

2. Tech Store - E-commerce Web Application

[Live Link](#) | [Github Code](#)

Features:

- Built a high-performance full-stack e-commerce platform using Next.js (App Router) with SSR, ensuring fast load times and scalable architecture.
- Developed core features like product filtering, cart & wishlist, and secure authentication.
- Integrated Stripe & local payments (bKash, Nagad) with an admin dashboard for order and product management.

Technologies used: Next.js, React, Typescript, Tailwind CSS, Redux Toolkit, MongoDB, Mongoose, NextAuth.js, Stripe, Framer Motion, JWT
